## SOFTWARE ENGINEERING PROJECTS

### Spotify Clone

*React, Next.js, Tailwind CSS, HTML, Spotify Web API JS, Spotify Web API Node*

- Clone project of the Spotify web player which mimics the player's frontend behaviours but with a new twist on the UI
- Fetches data about music artists, albums and tracks from the Spotify API
- Equipped with user authentication via NextAuth

### **Food Delivery App**

*React, Faker.js, Node.js, Express, Bootstrap, HTML, Stripe, MongoDB, Mongoose, REST API, Adobe Illustrator, Figma*

- Full-stack application which focuses on users' food ordering experience, with keen attention to UI and accessibility
- Fetches fake data about restaurant and food names from Faker.js and displays them in cards
- Wireframes designed in Figma and illustrations in Adobe Illustrator

### Recipes Blog

*jQuery, Node.js, Express, EJS, Bootstrap, MongoDB, Mongoose, AWS SDK, REST API, MyCookbook.io*

- Backend project which fetches recipes from MyCookbook.io the API
- Allows users to access and search continental recipes as well as submit their own recipes

### Jeopardy!

*HTML, CSS, JavaScript, Open Trivia Database*

- Frontend quiz game which features 30 question cards under six categories

## WORK HISTORY

### **The Standard (Full-time)**

*Metro News Reporter*

Hong Kong

Jan 2020 - Dec 2021

- Gathered Chinese-language news, attend press briefings and conduct interviews.
- Wrote articles on Hong Kong's accidents, crime, technology, economy, social welfare, district elections, protests, public health and aviation in English for print and online.

### **Coconuts, The Telegraph, CNN (Contract / Freelance)**

Hong Kong

*Reporter / Production Assistant*

Aug 2019 - Mar 2020

- Carried out research in the news, conducted interviews and wrote metro news-related stories.
- Monitored live feeds, arranged and transcribed local interviews for news producers as well as translate press conferences from Cantonese to English.
